G-S PLASTIC OPTICS Announces ISO 9001:2008 Certification

(May 15, 2013) Rochester, NY – G-S PLASTIC OPTICS, a world-class manufacturer of coated and uncoated injection molded, diamond-turned, and machined polymer optical elements, today announced it has become ISO 9001:2008 certified.

ISO 9001:2008 is recognized by businesses around the world as the premier quality management standard. It provides a universally accepted suite of quality-oriented business management process objectives and standards that must be made an integral part of a quality-run business in today's global manufacturing and business environment. Comprehensive audits, covering an extensive list of business operations and procedures, were carried out by Eagle Registrations Inc. of Dayton, Ohio. G-S PLASTIC OPTICS has established a strong reputation for product performance, delivery reliability, customer service, and innovation over many years and the recent successful ISO 9001:2008 registration compliments this long-standing focus on quality.

"We strive, every day, to produce the best product performance and quality possible for our valued customers. We are pleased and honored to achieve this important milestone and we won't stop improving; we remain committed to achieve even greater quality business practice goals in the future," stated Andy Germanow, President of G-S PLASTIC OPTICS.

About G-S PLASTIC OPTICS

G-S PLASTIC OPTICS specializes in the custom manufacture of precision polymer optics for use in LED illumination systems, imaging, scanning, and detection applications worldwide. The company, located in Rochester, NY and founded in 1916, produces injection molded aspheric imaging optics and mirrors from 170 mm to less than 2mm in diameter. In addition, the company has in-house capability to provide custom designed diamond turned and injection molded prototypes, thin film and reflective coatings, and integrated optical solutions to meet a wide range of military, medical, commercial, and consumer markets. G-S PLASTIC OPTICS is registered with the Directorate of Defense Trade Controls (DDTC) as a military product manufacturer.
